

WALL CASING ADVERT

Wall casing ADVERT is designed for advertising purposes. There is an option to use either a hardened glass or hard coated plexi with digital print. The glass can be used with illuminated logo both below and above the screen. FANs are used for active cooling. It is designed to easily add new colors and materials for decor purposes. Material like brass and wood are commonly used. Designed to be used with Samsung QM65B and LG 65".
